

Before me the undersigned, a Notary Public in and for said County of Polk, State of Texas, on this day personally appeared Charles Randolph Weaver, to me well known, and who, after being by me duly sworn, deposes and says that :

My name is Charles Randolph Weaver. I am 66 years of age. (9-9-1936) I live at 3300 Capps Rd. Livingston, Texas 77351. Phone no. 936-327-6490

Presently I am employed by the Oriskany School District.

I previously was employed by the City of Lufkin before moving to Livingston and received the man of the year award for three consecutive years.

I am married with 4 living stepchildren and 2 children by a previous marriage.

I am Desiree Shaw's Father.

I have never heard from John Heath. He has never spoken to me or my family.

If John Heath was going to mount a proper defense for Desiree he should have talked to Desiree's and Royce's family and the people around them. At the end of the trial

I understand Mr. Heath said "the defense rests". That was a joke. Tell me you would hire him, for your defense attorney. There is no way Desiree had a fair trial. Because if she had, she wouldn't have been convicted and sent to prison. She is innocent.

In 1989 Desiree was admitted to Woodlawn Heights Hospital in Lufkin and then rushed to Texas Women Hospital in Houston in critical condition. Upon her release, I drove down and brought Desiree home. I didn't know that Clayton Richardson was beating Desiree at that time.

She did not kill Clayton. Why on earth would she kill Royce.

Desiree has been a care giver all of her life. My mother was Essie Lorraine Weaver. She had a long battle with Cancer. I had to work, and couldn't be there all the time, but Desiree was always there when we needed her. She gave her grandmother quality care. It meant a lot to me.

My mother married Buck Bonner after my father's death. A few years after mother passed away, Buck was diagnosed with Cancer of the brain, Desiree helped take care of him until he died. She is not a selfish person. I have been and always will be proud of Desiree, and all the good things she has done for people.

Having to face Cancer myself has made me realize how much I miss her presence. There is not a doubt in my mind that she would have been there, just like she has been, all her life. Desiree deserves a chance to prove her innocence. Respectfully,

Further the Affiant sayeth not.
