CMR, 27 OCT 99

Item 1: Piece of carpet (cont.)

A portion of St1A and St1-C will be submitted for chelux extraction. Due to the small size of St1-B, this stain will not be submitted for extract. The remainder of St1A and St1-C will be retained. St1-B and 1-SC will also be retained.

No stains resembling blood are observed on the backing of the carpet.

Package also contains a blue "Crime Scene Unit Evidence" card, with the following information ^{written} printed on it "TH", "4", "99/1714" and "8/19/99".

CMR, 27 OCT 99

Item 1: Piece of Carpet

The package contains a piece of carpeting, $\sim 12" \times 10\frac{1}{2}"$. The carpet had a blue-green color. The backing is beige, and has the following information written on it: "TH-4"; "99/1714".

The carpeting is examined for stains resembling blood. Several brown stains are observed on the blue-green carpet fibers.

A sketch of the piece of carpet is drawn below
