

with her natural father?

A I know that she visited her grandparents and that he was, he lived with the grandparents.

Q Do you know Mr. Burkett?

A No, sir, I do not.

Q Do you know anything about his past?

A I know that he was charged with sexual battery on the mother and served time for it.

Q Do you know whether or not the mother had suffered any sexual abuse at the hands of Mr. Burkett other than that for which he went to jail?

A All I can recall from the notes was that he would force her to have anal intercourse, which she was opposed to. And apparently that happened more than one occasion.

Q And you were aware or you became aware that during the Christmas Holidays Mr. Burkett had been released from prison and was staying with his parents and had access and visitation with Angela?

A Yes, sir, I knew that she visited out there.

Q Mr. Box, did you ever become aware of whether or not Angela in her home, that is, the Minton home, had access to and has viewed sexually explicit video tapes and sexually explicit magazines?

A No, sir, I didn't, I didn't, nothing about that

comment. I probably asked them about it, but there was no indication that she had.

Q Okay. Would that have any bearing on this in your mind if that were shown to have existed prior to these allegations having been made?

A I always in sex abuse cases I ask that question because it's been my experience that kids that have seen sexually explicit material can describe even in better detail maybe than a child that's actually gone through some abuse the very specific details of what actually occurs in intercourse, that kind of thing.

And I know that while working up in Hamilton County I experienced some difficulty in about three cases because parents did go up into Lake Park, at that point in time they could rent triple X rated movies from one of the movie, you know, one of the video shops up there. So, I'm conscious of that, well aware of that.

MR. PAGE: Thank you very much,

Mr. Box, I don't believe I have any more questions.

MR. CUPP: No questions. Thank you.

(And thus the deposition ended)
